

“Brick, Masonry & Sustainable Design Ideas”

AIA Continuing Education:

General Shale is a Registered Provider with The American Institute of Architects Continuing Education Systems (AIA/CES). Credit earned on completion of this program will be reported to AIA/CES for AIA members. Certificates of Completion for both AIA members and non-AIA members are available upon request.

This program is registered with AIA/CES for continuing professional education. As such, it does not include content that may be deemed or construed to be an approval or endorsement by the AIA of any material of construction or any method or manner of handling, using, distributing, or dealing in any material or product.

Questions related to specific materials, methods, and services will be addressed at the conclusion of this presentation.

Topics Covered:

This program will discuss green / sustainable construction and design concepts. Discussions will be on how brick fits into green building design and the advantages brick has to offer. Also, discussed will be how brick design and building concepts integrate with environmentally friendly technologies.
